

ALTERNATIVE SYSTEMS

GENERAL REQUIREMENTS

All rules pertaining to a standard subsurface system shall be applicable, except as modified in this section for each alternative.

All alternative systems shall be approved for specific site use by the Health Districts in a manner consistent with the individual District's policy for use of alternative systems.

Requirements for each site-specific alternative shall be contained in the permit.

The designer of alternative public systems must be a Professional Engineer licensed in the State of Idaho and experienced in the alternative system's design. The designer of alternative private systems may be required to be either a Professional Engineer or an Environmental Health Specialist. If either is used they must be licensed in the State of Idaho and should be experienced in the alternative system's design.
